

Smart VISIT

Your On-Demand SaaS solution

Technology & functions always state of the art

The best and most popular features in one package

Do you want to manage external persons in a **smart** way?

Choose our **Visitor Management as a Service (VMaaS) Smart Model**. We manage and provide the IT infrastructure and all the necessary system requirements to ensure frictionless operation on a permanent basis.

Constantly securely and in compliance with data protection laws.

The **smartest** features combined in one package

- ✔ Pre-registrations and different types of visits (craftsmen, visitors, etc.)
- ✔ Management of entries / exits and recording of actual attendance times
- ✔ Invitation e-mails / notifications (incl. attachments, QR code) / SMS dispatch
- ✔ Visitor badges with picture and documentation of signatures and personal data
- ✔ Evaluation options / reporting functions
- ✔ Site management and evacuation lists
- ✔ Role-based authorization concept
- ✔ Overview function / dashboard
- ✔ Data protection law compliant
